

Item 1

D (Ch) Fully nationally funded impact on local govt. finances (given % of typical LA budget it represents)

Behan – in impact assessment, can be done, modelling has been done.

D (Ch) – young people input

Behan – untapped

Will not go down Scotland route

Doreen H – Age as predominant issue

Majority ion residential are 85 +

Main expense for jkeeping in home is similar age group

What research on ahat works?

Elderly with no relative

End up handled by solicitors

- national fund for this?

Increase working age

European issue

‘ageing well’ (and youthful E European pop.)

M Roberts More research and best practice

Finance – we need to see impacts

Generational element

Disability of younger people

Brian Monmouth problem of border authorities

Currently an English proposal and l;ots of people already cross borders
fro healthcare convenience

Behan price of devolution

Is technically possible

Also issue of those returning/retiring abroad

On research: research will take time and this is really urgent

Research we already have is often ignored

N Khan level of priority given to this in councils

Relation with Total Place

Changing way we deliver services – rather than just saving moey/cuts – and
needs to be presented this way.

Mike (Con) buy in to insurance – what about those who don’t/can’t

Diff types of LA are funded differently – so how achieve consistency

Prevention and early intervention

All current community groups and voluntary orgs not joined up – the most vulnerable and isolated are often missed. Communities need to think more about tackling isolation and giving ‘that little bit of help’.

Richard Jones – Way we deliver

Innovation is not mainstreamed, too often remains the ‘froth on top’

Need to step into communities (and tackle the ‘professional gift’ attitude to providing social care)

Behan Total Place: useful for longer term strategy and linking up this will require. Most already set short to medium term so not big impact there

Overcome ‘postcode lottery’ – and determine level of acceptable difference in services for citizens of this country

If we are not talking about new research but evidence, then this we already have and need to disseminate

Funding – price determined by ability to pool risk

—

Keith G status quo unsustainable even in the short term – but really need to bring people with us on this issue. For most people this doesn’t hit their radar until someone they know needs it.

How do we make this everyone’s business and shift it up the priorities.

N Warriner issue not being discussed even by a lot of cllrs and vol. orgs. (on the ground)

—

Rich Jones Everyone’s business: how do we scope out and set terms of the debate for the public – real danger could be lost in pre-election furore.

Behan Where money coming from – £6 bill shortfall

With insurance on top of everything else

20 bill by 2014

27 bill by 2026 raised by this

Cllrs need to step up and lead debate as community leaders. Everyone’s business: how do we scope out and set terms of the debate for the public – real danger could be lost in pre-election furore.
