Business Planning 2013/14

Background

1. The process of developing the Business Plan for 2013/14 has begun and is due to be signed off by the LGA Executive in March.
2. The LGA Leadership Board at its meeting on 17 October provided a high level steer on the LGA's priorities for 2013/14 (see **Appendix A**). The LGA Boards are now being asked to develop proposals for next year to inform the more detailed business plan and budget.
3. Members are invited to offer initial views in to the process. It is anticipated that the overall budget for 2013/14 will be broadly in line with this year's budget and that the five priorities remain relevant but with a sharper focus on economic growth, funding and public service reform.
4. By way of background members will be aware that the work of the Community Wellbeing Board relates directly to all five of the current priorities. These are:
 - 4.1 **Public service reform** – councils are at the centre, and seen to be at the centre, of public service reform and delivering more effective services for local people
 - 4.2 **Growth, jobs and prosperity** – councils are recognised as central to economic growth
 - 4.3 **Funding for local government** – reform of the public sector finance system so councils raise more funds locally, have confidence their financing is sustainable and fair, and greater ability to co-ordinate local public services.
 - 4.4 **Efficiency and productivity** – councils dramatically reduce costs in ways which minimise the impact on the quality of life for their residents
 - 4.5 **Sector-led improvement** – councils are the most improved part of the public sector, and local politicians and senior managers lead the transformation of local places.
5. The Leadership Board's initial view is that the efficiency and productivity priority should become part of the Public Service reform objective and that sector led improvement should be core to everything the LGA does and underpin all of the three priorities.
6. The Community Wellbeing Boards is therefore asked to focus on the following questions in respect of the work of the Board:
7. For the LGA's top priorities, what should we be focussing on and trying to achieve for maximum impact on behalf of our members;

- 7.1 How should the Community Wellbeing Board's work be reflected in and contribute to the those top priorities, and;
- 7.2 What should the Community Wellbeing Board's priorities be for our work programme next year? What have we found out about what works and what doesn't work over the last year? What should we be doing more of? What should we be stopping or doing less of?

Conclusion and next steps

- 8. Members are invited to offer views into the process for developing the LGA Business Plan for 2013/14.

Financial Implications

- 9. There are no additional financial implications arising from this report.
