

Fire Services Management Committee

Agenda

Friday, 20 May 2022
11.00 am

Hybrid Meeting - 18 Smith Square and
Online

To: Members of the Fire Services Management Committee
cc: Named officers for briefing purposes

www.local.gov.uk

This meeting is

Guidance notes for members and visitors

18 Smith Square, London SW1P 3HZ

Please read these notes for your own safety and that of all visitors, staff and tenants.

Welcome!

18 Smith Square is located in the heart of Westminster, and is nearest to the Westminster, Pimlico, Vauxhall and St James's Park Underground stations, and also Victoria, Vauxhall and Charing Cross railway stations.

Security

All visitors (who do not have an LGA ID badge), are requested to report to the Reception desk where they will be asked to sign in and will be given a visitor's badge to be worn at all times whilst in the building.

18 Smith Square has a swipe card access system meaning that security passes will be required to access all floors. Most LGA governance structure meetings will take place on the **ground floor, 7th floor and 8th floor** of 18 Smith Square.

Please don't forget to sign out at reception and return your security pass when you depart.

Fire instructions

In the event of the fire alarm sounding, vacate the building immediately following the green Fire Exit signs. Go straight to the assembly point in Tufton Street via Dean Trench Street (off Smith Square).

DO NOT USE THE LIFTS.

DO NOT STOP TO COLLECT PERSONAL BELONGINGS.

DO NOT RE-ENTER BUILDING UNTIL AUTHORISED TO DO SO.

Open Council

Open Council, on the 7th floor of 18 Smith Square, provides informal meeting space and refreshments for local authority members and officers who are in London.

Toilets

Unisex toilet facilities are available on every floor of 18 Smith Square. Accessible toilets are also available on all floors.

Accessibility

If you have special access needs, please let the meeting contact know in advance and we will do our best to make suitable arrangements to meet your requirements.

Every effort has been made to make the building as accessible as possible for people with disabilities. Induction loop systems have been installed in the larger meeting rooms and at the main reception. There is a parking space for blue badge holders outside the Smith Square entrance and two more blue badge holders' spaces in Dean Stanley Street to the side of the building. There is also a wheelchair lift at the main entrance. For further information please contact the Facilities Management Helpdesk on 020 7664 3015.

Guest WiFi in 18 Smith Square

WiFi is available in 18 Smith Square for visitors. It can be accessed by enabling "Wireless Network Connection" on your computer and connecting to LGA-Free-WiFi. You will then need to register, either by completing a form or through your Facebook or Twitter account (if you have one). You only need to register the first time you log on.

The LGA also offers the Govroam network, a Wi-Fi network which gives Members seamless roaming internet access across multiple public-sector locations if you have also signed up for this service. This network is enabled throughout our Westminster building and allows Members and staff from other authorities who are part of the Govroam network to seamlessly connect to our Wi-Fi.

Further help

Please speak either to staff at the main reception on the ground floor, if you require any further help or information. You can find the LGA website at www.local.gov.uk

Fire Services Management Committee
20 May 2022

There will be a meeting of the Fire Services Management Committee at **11.00 am on Friday, 20 May 2022**. This will be a hybrid meeting - in the Victoria Room 18 Smith Square and Online via MS Teams.

LGA Hybrid Meetings

All of our meetings are available to join in person at 18 Smith Square or remotely via videoconference as part of our hybrid approach. We will ask you to confirm in advance if you will be joining each meeting in person or remotely so we can plan accordingly, if you wish to attend the meeting in person, please also remember to confirm whether you have any dietary/accessibility requirements. 18 Smith Square is a Covid-19 secure venue and measures are in place to keep you safe when you attend a meeting or visit the building in person.

Catering and Refreshments:

Once you have confirmed in advance of the meeting that you will be attending in person, along with any relevant dietary requirements, refreshments will be available in the meeting room. If the meeting is scheduled to take place at lunchtime, a sandwich lunch will be available.

Political Group meetings and pre-meetings for Lead Members:

Please contact your political group as outlined below for further details.

Apologies:

Please notify your political group office (see contact telephone numbers below) if you are unable to attend this meeting.

| Conservative: | Group Office: 020 7664 3223 | email: lgaconservatives@local.gov.uk |
| Labour: | Group Office: 020 7664 3263 | email: labgp@lga.gov.uk |
| Independent: | Group Office: 020 7664 3224 | email: independent.grouplga@local.gov.uk |
| Liberal Democrat: | Group Office: 020 7664 3235 | email: libdem@local.gov.uk |

Attendance:

Your attendance, whether it be in person or virtual, will be noted by the clerk at the meeting.

LGA Contact:

Jonathan Bryant
Jonathan.Bryant@local.gov.uk - 07464652746

Carers' Allowance

As part of the LGA Members' Allowances Scheme a Carer's Allowance of £9.00 per hour or £10.55 if receiving London living wage is available to cover the cost of dependants (i.e. children, elderly people or people with disabilities) incurred as a result of attending this meeting.

Social Media

The LGA is committed to using social media in a co-ordinated and sensible way, as part of a strategic approach to communications, to help enhance the reputation of local government, improvement engagement with different elements of the community and drive efficiency. Please feel free to use social media during this meeting. **However, you are requested not to use social media during any confidential items.**

Fire Services Management Committee – Membership 2021/22

| Councillor | Authority |
|----------------------------------|---|
| | |
| Conservative (5) | |
| Cllr Nick Chard (Deputy Chair) | Kent and Medway Fire and Rescue Authority |
| Cllr Eric Carter | Shropshire and Wrekin Fire Authority |
| Cllr Mark Healey MBE | Devon and Somerset Fire and Rescue Authority |
| Mr Roger Hirst | Police, Fire and Crime Commissioner for Essex |
| Cllr Rebecca Knox | Dorset and Wiltshire Fire and Rescue Service |
| | |
| Substitutes | |
| Cllr Andy Crump | Warwickshire County Council |
| Cllr David Norman MBE | Gloucestershire County Council |
| | |
| Labour (5) | |
| Dr Fiona Twycross (Vice-Chair) | Greater London Authority |
| Cllr Nikki Hennessy | Lancashire Combined Fire Authority |
| Cllr Greg Brackenridge | West Midlands Fire and Rescue Authority |
| Cllr Carl Johnson | Tyne & Wear Fire & Rescue Authority |
| Cllr Leigh Redman | Devon & Somerset Fire & Rescue Authority |
| | |
| Substitutes | |
| Cllr Sian Goding | Bedfordshire Fire & Rescue Authority |
| Cllr Jane Hugo | Lancashire Combined Fire Authority |
| Cllr Les Byrom CBE | Merseyside Fire & Rescue Authority |
| | |
| Liberal Democrat (2) | |
| Cllr Keith Aspden (Deputy Chair) | North Yorkshire Fire & Rescue Service |
| Cllr Jeremy Hilton | Gloucestershire County Council |
| | |
| Substitutes | |
| Cllr Roger Price | Hampshire & Isle of Wight Fire & Rescue Authority |
| Cllr Carolyn Lambert | East Sussex Fire Authority |
| | |
| Independent (2) | |
| Cllr Ian Stephens (Chair) | Isle of Wight Council |
| Cllr Frank Biederman | Devon and Somerset Fire and Rescue Authority |
| | |
| Substitutes | |

| | |
|------------------|-------------------------------------|
| Cllr Luke Frost | Cleveland Fire & Rescue Authority |
| Cllr Nigel Smith | North Wales Fire & Rescue Authority |

Agenda

Fire Services Management Committee

Friday 20 May 2022

Building Safety Update

Purpose of report

For discussion.

Summary

This report aims to update members on the LGA's building safety-related work since the committee's last meeting.

Recommendation

That members note and comment on the LGA's building safety related work.

Action/s

Officers to incorporate members' views in the LGA's ongoing building safety related work.

Contact officer: Charles Loft
Position: Senior Adviser
Phone no: 020 7665 3874
Email: Charles.loft@local.gov.uk

Building Safety Update

Background

1. Since the committee's last meeting, the Building Safety Bill has received Royal Assent; a date for the commencement of the Fire Safety Act has been set and the LGA has continued to work to support remediation.

Remediation

2. The LGA has already published [case studies](#) and a document on [principles of effective regulation](#) and have worked closely with Department of Levelling Up, Housing and Communities (DLUHC) officials and the National Fire Chiefs Council (NFCC) to promote joint working in this area, including through webinars that have reached over 600 council and fire service staff and through the work of the Joint Inspection Team which DLUHC funds.
3. Two related pieces of work are underway that will impact FRSs (Fire and Rescue Services):
 - 3.1. The DLUHC-led group Remediation Partners continues to work on a framework to support remediation, based on proposals for regional meetings between FRS and local authority environmental health teams in line with the Principles for Effective Regulation document. These regional meetings are expected to be based on the NFCC regions. The initial focus of activity is expected to be 'missing buildings', i.e. those with interim fire safety measures which have not applied for funding to begin remediation.
 - 3.2. Discussions are under way with DLUHC and NFCC to support a coordinated audit of risk within medium-rise residential buildings (11-18m).
4. While it is clear that there are a number of buildings under 18m that present a risk to life as a result of the failure of the regulatory system over twenty years and the irresponsible behaviour of some industry actors, we do not have accurate data on the true extent of this problem; nor do we know how widespread the over-provision of waking watches may be.
5. The LGA and NFCC therefore support the principle that we should improve our knowledge in this field. However, both organisations have conveyed to DLUHC that existing regulatory frameworks are not designed to prohibit excessively risk-averse behaviour, and it is unrealistic to think that a programme of inspection by either fire service or council regulators will be able to eliminate it, especially given the absence of powers to do so and the uncertainty around personal emergency evacuation plans (PEEPs).
6. LGA officers have sought a clear steer from Government on when those parts of the Building Safety Act that relate to funding for remediation can be expected to commence and what their impact will be, and have stressed the need for the Government to set out clear expectations in regard to enforcement action.
7. The Joint Inspection Team has secured funding for the next two years which will see it expand significantly. In effect it will triple in capacity by the end of this financial year.

Building Safety Bill

8. The Act received Royal Assent last month. There are a significant number of pieces of secondary legislation that will need to be passed in order to set up the new Building Safety Regime. There are also a number of questions we need to continue to ask. Those relating to FRSs are set out below:
9. **Will we end up with an effective relationship between the demands on FRSs made by the Building Safety Regulator and the funding available to expand capacity in the protection sphere?** The NFCC has not been given the funding it asked for to deliver the Health and Safety Executive's (HSE) plan. Discussions on the extent to which the plan needs to change to take account of this are ongoing.
10. **What will the impact be of the provisions protecting leaseholders on the ability to pay for remediation?** We are seeking clarification from officials on the impact of the Act and associated measures. In particular it is currently unclear what will happen in blocks where there is no warrantee and no successful claim against the developer and the cost of remediation is too great to be covered by leaseholders within the cap. In theory the freeholder is expected to pay, but that is unlikely if the sum is large as freeholds are not particularly valuable; moreover the freeholder will in many cases be the leaseholders acting collectively.
11. The chief concern here for FRSs is that the government wants councils and fire services to take enforcement action to drive remediation; this is not going to work if there is no funding available to pay for remediation (a related issue is that we do not yet know when these provisions commence and until they do it is likely that landlords will drag their feet to ensure they do not miss out on funding by acting before the support is in place).
12. **How effectively will the Act be aligned in operation with the Fire Safety Act?** The LGA and NFCC continue to seek to influence the HSE's setting-up of the new regulator to ensure this alignment takes place.

Fire Safety Act

13. The Act will commence this month and commencement will be followed by regulations implementing most of the recommendations made by phase one of the Grenfell Tower inquiry.
14. The Act will require responsible persons (RPs) to consider the need to update their fire risk assessment to take account of external wall systems. A Fire Risk Assessment (FRA) Prioritisation Tool will be launched alongside commencement. Its purpose will be to inform RPs of how urgent the need to review their FRA is, in order to spread out demand for the limited resource of fire risk assessors.
15. FRSs will be expected to use the clarification provided by the act to support remediation. See paragraph 2 above.
16. Following commencement of the Act the Home Office will lay regulations relating to the recommendations of the Grenfell Inquiry Phase One. Details will be circulated immediately prior to the meeting but when these regulations commence (which we anticipate is likely to be in the Autumn) they will result in FRSs receiving various items of information from Responsible Persons in some buildings, including (we expect):

- 16.1. Details of the materials and design of the external wall systems, including the level of risk posed and mitigations in place
 - 16.2. Floor plans (including the location of essential fire-fighting equipment) and a single page building plan
 - 16.3. Details of any lifts for use by firefighters and fire-fighting equipment which are out of order for a period of longer than 24 hours
17. It will be necessary for FRSs to prepare for this change and consider how much information they are likely to receive and how best to deal with it.

Implications for Wales

18. The Fire Safety Act came into force in Wales in [October 2021](#). Building regulations and fire and rescue services are devolved responsibilities of the Welsh Assembly Government, and the main implications arising from the recommendations of the Hackitt Review and the government's response to it are on building regulations and fire safety in England. However the Welsh government has announced that it will be making the changes recommended in the report to the regulatory system in Wales, and the LGA has been keeping in contact to ensure the WLGA is kept informed of the latest developments in England.

Financial Implications

19. Although the LGA has set up the Joint Inspection Team, the cost of doing so is being met by DLUHC. Other work arising from this report will continue to be delivered within the planned staffing budget.

Next steps

20. Officers to continue to support the sector's work to keep residents safe and reform the buildings safety system, as directed by members.

Fire Services Management Committee

| | |
|----------------------|--|
| Date: | Friday 20 May 2022 |
| Title: | NFCC Update |
| Presented by: | Mark Hardingham, NFCC Chair |
| Contact: | chair@nationalfirechiefs.org.uk |

1. Purpose

- 1.1 This report provides an update on key work within the National Fire Chiefs Council (NFCC).

2. General Update

UK Fire Service Convoy Delivers Aid to Ukraine

- 2.1 Three convoys of UK fire service kit and equipment have travelled to Ukraine over the last two months, providing vital life-saving equipment to firefighters.
- 2.2 Organised by UK charity FIRE AID and International Development, the National Fire Chiefs Council (NFCC), EASST, and the wider fire industry, the convoys have also been supported by the Home Office and other government departments.
- 2.3 Sixty fire vehicles – packed with hoses, helmets, thermal imaging cameras, generators, ladders, rescue equipment and protective equipment and other kit requested by Ukraine – have now been donated by UK fire and rescue services, fire authorities and the fire sector.
- 2.4 The deployment of these donations is being supported by funding from the Home Office, Foreign, Commonwealth & Development Office, and the FIA Foundation.

New Chief Operating Officer

- 2.5 Susannah Hancock will be joining NFCC as Chief Operating Officer (COO) on 4 July. She was appointed COO at the beginning of April following a full and in-depth selection process which saw more than 20 applicants. Susannah is currently Chief Executive at the Association of Police and Crime Commissioners (APCC).
- 2.6 The role of COO has been filled on an interim basis by Steven Adams since May last year. Steven will continue in this role until Susannah starts on 4 July.

3. Portfolio Update

People Programme

3.1 The programme has been scoping the work for 2022/23 with stakeholders including the HR Forum, Home Office, HMICFRS, programme and project boards. The key focus in addition to completing live projects, is to embed the existing products of the programme using Maturity Models as a primary tool, with a further focus on EDI and leadership development.

| Project | Update |
|------------------------------------|--|
| Leadership | <p><u>Coaching and Mentoring</u></p> <p>Following a procurement exercise, the contract has been awarded to Coaching Focus who have existing experience with the FRS.</p> <p>The portal is an off-the-shelf product which has been customised and will be populated with a list of FRS coaches, mentors and champions who are in the process of being trained. To date, 31 FRS have engaged with the project, offering 29 qualified coaches, 29 mentors and 29 champions.</p> <p>It is free to all UKFRS, with the portal funded by the NFCC. It is on track to go live, once approved at the People Programme Board, in May 2022.</p> <p><u>Talent Management Framework</u></p> <p>The consultation on the framework was completed in December 2021 with positive feedback from FRS. The technical editing, and final design have been completed and signed off at the People Programme Board in April 2022. It is due to be launched at the end of April/May 2022</p> |
| Supervisory Leadership Development | <p>The project awarded the contract for both the portal and the training programme development to Chartered Management Institute (CMI). The team are now working with CMI to focus on developing the training programme based on the feedback from the consultation conducted last year.</p> <p>The contract provides 2,000 free licences to the UK FRS over two years. The project will offer each UK FRS 20 free licences per year for operational and non-operational aspiring and existing first-line managers to support them at this crucial stage in their leadership development.</p> |
| Direct Entry | <p>This project was previously at risk of delivery but has had direction from NFCC Council on the delivery model. The option delivers a scaled down programme with 13 FRS initially committed as early adopters allowing a proof of concept. This approach does not rely on a fully sustainable funding model, with these FRS self-funding places</p> |

| | |
|-----------------------------------|---|
| | <p>on the programme with central funding from NFCC to coordinate and support the initiative.</p> <p>The project is now working with these FRS to refine the requirements of both the recruitment process and the training programme.</p> |
| Equality, Diversity and Inclusion | <p>The development of guidance for the EDI hub continues at pace with consultations for Equality of Access People with Dementia and Emerging Migrant Communities and toolkits on Gender Diversity, Neurodiversity and EDI Data having recently completed. The full suite of documents will be ready for sign-off, publication and launch in May 2022.</p> <p>A calendar of EDI notable dates of both NFCC events and national awareness dates will be published shortly. The continuing programme of Lunch and Learns is being planned with a recent session focussing on the Holocaust Memorial Day supported by a video created for the day filmed with South Yorkshire FRS.</p> <p>The project has been collating EDI research from across the sector and internationally and will be publishing this in a broader NFCC Research Hub along with a literature review identifying the key findings and gaps where future research may wish to focus.</p> |
| Recruitment | <p>The recruitment hub staging site went live in February 2022 using ukfrs.com to ensure user functionality can also be tested as part of the consultation. Consultation review sessions took place in April 2022 and preparations to present for sign off at Project and Programme Board are underway.</p> <p>The consultation on the firefighter job description and person specification resulted in a high level of responses and some challenges to the design of the output. Further engagement with CFO/CEs was conducted to establish if a solution that meets both the needs of FRS and the project can be identified. Following this engagement, a new design has been created which received positive feedback. This output is likely to go to Programme Board for sign-off in May 2022 to launch on the recruitment hub. The project is dependent upon this output to enable a review of the selection processes to ensure they do not deselect candidates unnecessarily and support the increase in diversity of firefighter recruits.</p> <p>The review of practical tests will continue beyond the launch of the recruitment hub. A procurement for research is out for tender, with contracts likely to start at the end of May 2022.</p> |
| Working Patterns | <p>The products of this project are now published on ukfrs.com. It holds the full toolkit consisting of Working Patterns Case Studies</p> |

| | |
|---|---|
| | (published), Case Studies Implementation Toolkit and Research Paper – Challenges in Maintaining On-Call Working Patterns. |
| Review of National Occupational Standards | The functional analysis that was previously commissioned has now commenced using the consultant RedQuadrant who intend to deliver a high-level functional model by April. Further functional analysis will need to be continued to complete this work. A survey looking at the current use of National Occupational Standards will support this work and was completed at the end of March 2022. |
| Evidence Base for Health and Wellbeing | <p>The project has commissioned a piece of research with Nottingham Trent University that will meet the majority of the project deliverables and clarify what the requirements would be for nationally coordinated health & wellbeing support.</p> <p>The project is also collaborating with AFSA on a piece of research specifically relating to suicide prevention that will also provide evidence to support the development of national support.</p> <p>Following on for the Mental Health at Work Symposium supported by HRH Prince William, the project is also maximising the impact of the commitment and related support, working with the Royal Foundation to signpost support and guidance and look for further opportunities.</p> |

Digital and Data Programme

3.2 The current data priorities for the programme are set out below.

| Project | Update |
|--|---|
| Strategy: Aligning data strategy and developing a national fire data collection system | <p>A review of the current NFCC Digital & Data Strategy will ensure alignment with Fit for the Future and Home Office and HMICFRS data strategies. It is anticipated that the review will produce separate but complementary strategies for both Data and Digital for the sector.</p> <p>NFCC engagement has included participation in the Fit for the Future review workshops as well as engagement with key individuals and workstreams such as the Community Risk Programme and NFCC Data Portal.</p> <p>Extensive engagement with Home Office and HMICFRS representatives has taken place including NFCC hosting strategic stakeholder workshops in December 2021 and January 2022.</p> <p>The programme has secured an initial six-month full-time secondment for the National Data Lead to drive forward the data priorities within the programme. This role will also inform and lead the data analytics capability.</p> |

| | |
|--------------------------------|---|
| <p>National Data Standards</p> | <p>The draft Data Management Fire Standard was shared for consultation in March 2022. Feedback will be reviewed in May 2022 to inform the final version to be published in June 2022.</p> <p>Using the consultation feedback, the programme will identify the key products that will be required to support FRS implementation of the standard. A business case for these products will be developed in Q2 with development expected across the rest of the financial year.</p> |
| <p>Data Collection</p> | <p>There is agreement between NFCC, Home Office and HMICFRS of the merits of collaborating to deliver a National Fire Data Collection System (NFDCS) that will act as the prime repository for all national fire data sets, readily accessible by key stakeholders to plug their analytics capability into.</p> <p>The two strategic stakeholder workshops referenced above have so far secured agreement on the scope of the system, who will lead and resource the project and an outline timetable for the delivery of the first element. To support this, the programme has agreed to lead a project to map the current fire data landscape to baseline and inform requirements for such a system.</p> <p>The scope of this work is nearing agreement with the Home Office, and all three phases of work are expected to commence within Q1.</p> <p>The Home Office are leading detailed user research into the desired functionality of the system across Q1 which the Digital and Data Programme will be supporting.</p> |
| <p>Data Analytics</p> | <p>The D&D Programme has secured the resources to fund a fulltime NFCC Data Lead into this role for an initial 6 months. The initial focus of the analytics capability will be to address key NFCC transformation priorities, including gaining access to the third-party national datasets required to inform the new community risk methodology, and evaluating the effectiveness of Fire Standard implementation.</p> <p>As the analytics capability scales it will seek to address wider data and analytics requirements and further establish and embed the designed operational processes to ensure value is being delivered.</p> <p>The ambition for the capability will be to provide national collation, transformation and presentation of key data sets; capturing, prioritising and modelling business use cases from the UK FRS; control and governance to the use of data analytics across the service, and centralisation of relationship management with key central government stakeholders and other organisations.</p> |

| | |
|--|---|
| | <p>Across 2022/23 the programme plans to roll out a proof-of-concept implementation of the designed national data analytics capability, with Q1 focussing on scoping the approach to this activity.</p> |
| Engage, Promote, Motivate, Collaborate | <p>Following a successful recruitment campaign, the programme now has a cadre of circa 17 volunteers from the existing fire sector analyst's community who are willing to support the NFCC Data Lead in progressing the work of the programme.</p> <p>Planning is well underway for a future of fire data conference to take place in June 2022. This will be an opportunity to share developments in the programme and those of its strategic partners, explore the art of the possible, build networks and communities, and to hear from others both within and external to the FRS about innovations in data and analytics.</p> |
| Digital Priorities | <p>As the data-focused work develops at pace, the programme is turning its attention to refreshing and focusing down the key priorities for the digital element of the programme. At present, these are focused around:</p> <ol style="list-style-type: none"> 1. <u>Strategy</u>: Alignment of digital strategies across key stakeholders, primarily NFCC and the Home Office 2. <u>Standards</u>: Development of professional fire standards to standardise and support digital transformation across the UK FRS 3. <u>Engage, Promote, Motivate, Collaborate</u>: At this stage the focus is on engaging the UKFRS digital community & fire leadership to shape the future priorities for digital across the sector 4. <u>Building the NFCC Capacity & Capability</u>: early discussions are taking place to explore the benefit in reviewing existing NFCC structures and establishing a National Digital Lead to help. |

Community Risk Programme

3.3 The project has made good progress towards delivery of the CRMP toolset with 4 items of guidance going live, and both the Definition of Risk proof of concept methodology and the Economic and Social Value report being finalised.

| Project | Update |
|--------------------------|---|
| Definition of Risk (DoR) | <p>The DOR project team continues to work with colleagues in PPRU in the development of the Other Building Fires (OBF) risk assessment methodology and have conducted a gap analysis of national data available to deliver this work. The objective of this workstream is to deliver an evidence-based risk methodology that will provide a relative risk rating or 'initial risk score' for Protection colleagues. The team will work with the recently formed PPRU Working Group to</p> |

| | |
|---|---|
| | <p>develop the consequence categorisation for this work. The project is cognisant of the work underway in PPRU to review current inspection frameworks/guidance.</p> <p>Work is also underway to deliver a risk assessment methodology for Road Traffic Collisions (RTC). To date the team have been identifying nationally available data to begin modelling for RTCs, including engagement with Department for Transport, Highways England, UKRO and others. Two working groups will support the development of the RTC methodology, one made up of FRS subject matter experts and the other composed of external SMEs including the organisations named above.</p> <p>An output of the POC workstream was the delivery of risk scores for England at both an LSOA and UPRN level by contractors ORH. The NFCC are the owners of this data, which is currently being transferred from ORH to the Data Portal for storage. Discussions around how this data may be used are yet to take place at a project board and programme board level.</p> <p>The Proof-of-Concept Report (Domestic Dwelling Fires Risk methodology) requires branding before it can be published on the UKFRS website. This work is currently on hold pending budget reallocation by the NFCC. The delivery of training workshops on the methodology as requested by FRS colleagues is also currently on hold.</p> <p>The project has received interest from fire service colleagues internationally in the methodology.</p> |
| <p>Community Risk Management Planning (CRMP) Guidance</p> | <p>The guidance project has four pieces of approved guidance that became live on both NFCC and UK FRS website in March, prior to the CRP Round Table events held at West Midlands FRS on 10th and 17th March. The guidance can be used as web-based or by downloadable PDF.</p> <p>The Round Table events had both in-person and online attendance and online polls taken during these indicated that over 95% of the participating FRS planned to use the guidance in developing and updating their CRMPs.</p> <p>Evaluation Guidance, which is guidance for the evaluation of the CRMP development process, and not of its impact, has had an early review by TWG and that feedback has been incorporated for discussion with the external consultant to update accordingly. The updated draft will be brought to CRP Guidance Board for approval to go to wider consultation.</p> <p>Hazard Identification, Risk Analysis, and Decision making guidance are in draft scope and will be developed in-house. These will go to</p> |

| | |
|---|--|
| | <p>September Board for final approval. Each of these pieces of guidance intersects Definition of Risk Guidance and work underway with PPRU, and these groups are working together to refine these pieces of guidance and provide relevant signposting.</p> <p>The Consultation Institute, which developed the Stakeholder and Public Engagement Guidance, has invited Project Manager Paquita Lamacraft to make a presentation to their annual conference on 6th October, and it has been agreed that where possible to do so, this will showcase case studies from English and devolved administrations on use of the guidance.</p> |
| Economic and Social Value of the UK FRS (ESV) | The ESV report is being finalised and reviewed by the Home Office. |
| Competencies for Risk Managers | Exact Consulting delivered draft Competencies Frameworks that were approved by the Project and Programme Board for formal consultation with the sector in Q1. |
| Evaluation of FRS Interventions | The Project Board finalised procurement requirements for a tender process that was launched in Q4 to identify a contractor to deliver a 'gap analysis' of the current state of evaluation amongst UKFRS. The responses to the tender will be reviewed by the project board and a supplier selected in May. |
| Consultation, Research and Evaluation Officers (CREO) | Following a presentation by the Guidance PM on the Evaluation Guidance (evaluation of the CRMP process – not of impact and outcomes), CREO members decided to hold two workshops on the CRMP: one with in-person attendance, and the other online. This gives both exposure of the Guidance and the opportunity for feedback from SMEs. |

Prevention Programme

- 3.4 The programme has continued to work on its plans for 2022/23 with stakeholders including the Home Office, the Prevention Committee, programme and project board members.
- 3.5 The Prevention Programme Board met on 30 March 2022 with representatives from Fire and Rescue Services, Royal Society for the Prevention of Accidents (RoSPA), Home Office and the NFCC. The NFCC Prevention newsletter was produced and circulated in March 2022.

| Project | Update |
|---------------------------------|---|
| Person-Centred Approach Project | The Person-Centred Framework project has completed a self-assessment of the work progressed in 2021/22. The Online Home Fire Safety Check has 8 Fire and Rescue Services live, 16 onboarding and 13 interested. We have the Fire Minister's |

4. NFCC Protection Policy and Reform Unit (PPRU) Update

4.1 This section provides a high-level overview of key pieces of work currently being undertaken by the PPRU.

Protection Uplift Grant

4.2 As of the end of Q3 the overall spend against the Protection Uplift grants was just over £9.5m out of the total £24m.

4.3 The Minister for Building Safety and Fire wrote to Chief Fire Officers in April to ask for their ‘top 3 best practices’ in regard to protection uplift. The deadline for these submissions to Home Office was 28 April 2022 and PPRU will share any learning.

4.4 The PPRU continue to engage with Government to secure further funding for FRS Protection functions and subsequently a further £12m has been confirmed as available to FRS 2022/23

Building Safety Bill

4.5 The Building Safety Bill, having received agreement by the House of Commons and House of Lords, received Royal Assent on 28 April 2022.

4.6 A range of working groups and workshops continue to meet under the Joint Regulators Group (JRG) Board. The JRG, which is chaired by the HSE and includes DLUHC, the Home Office, Local Authority Building Control, NFCC and the LGA continues to work towards more detailed proposals for how the new Building Safety Regulator will work in practice.

4.7 Following the launch of Planning Gateway 1 in August 2021, the PPRU have become aware of a number of direct approaches by the HSE to FRS with consultation requests on gateway

1 applications. The PPRU had requested to act as an intermediary in order to monitor the volume of work and provide consistent advice and guidance. Services have been briefed to share details of any direct approaches with the PPRU.

- 4.8 Early feedback seems to indicate that the original policy intent may be being stretched in practice by HSE with detailed design information being asked for at planning stage. PPRU understands that the original intent of PGO was to only deal with fire service access and water supply issues with regard to land use planning. HSE seem to be following the approach outlined in the London plan.
- 4.9 As part of the quarterly Protection Uplift returns PPRU are now collating from each FRS the details of all residential buildings in Interim Measures, on behalf of the Department for Levelling Up, Housing and Communities.
- 4.10 A review of the Simultaneous Evacuation Guidance (SEG) began in quarter 3 (October – December). Workshops have been held with stakeholders and to date over 400 comments have been received. These are being reviewed with a view to publishing revised guidance in quarter 1 (April – June) 2022.
- 4.11 The Guidance Technical Group (GTG) has completed consultations with FRSs on the Home Office series of Short Guides, with the comments and recommendations now returned to Government to write revised versions ahead of commencement of the Fire Safety Act.
- 4.12 The PPRU continue to work with Home Office officials to refine proposals to meet the GTI recommendation around PEEPs.

Fire Safety Act

- 4.13 At the time of drafting, it is anticipated that the Fire Safety Act will be commenced in mid-May. PPRU are preparing supporting communication materials to assist FRS.

Building Risk Review

- 4.14 The Ministerial commitment to assess all high-rise residential buildings by the 31 December 2021 was met and a letter has been sent to services thanking them for their work, recognising the additional burden this brought to protection departments.
- 4.15 An initial analysis has been provided to the Minister, and the public version of the report is now in the process of being reviewed by stakeholders and will be brought to the Fire Protection Board. We intend that we will share the report with FRSs prior to any publication.

Service Delivery

- 4.16 The Virtual Learning Environment for Fire Safety regulators has seen an increase in the number of registered accounts, completed courses, and CPD hours logged over the quarter January – March 2022.
- 4.17 PPRU continue to drive engagement with the platform, targeting those with the lowest activity, and gather feedback from users to improve functionality.
- 4.18 The Competency Framework for Fire Safety Regulators consultation has now closed, and a review of responses has commenced. The comment resolution and review is expected to take between 6-12 months.

- 4.19 Thanks to funding secured through the Regulators Pioneer Fund, West Sussex Fire & Rescue in partnership with the PPRU have produced an interactive Fire Safety Awareness tool for responsible persons (RPs). This is hosted on the NFCC website.
- 4.20 The PPRU held a national Protection Engagement forum on 29-30 March. The forum was a successful occasion with attendance from nearly all FRS which provided lots of opportunities for sharing learning, updating FRS on the PPRU's work, and building relationships.

| Title of Paper | Fire Standards Progress Report |
| Decision or Information | For information |
| Title and Date of Meeting | LGA Fire Services Management Committee 20 th May 2022 |
| Attachments | None |

Summary

This paper provides members of the LGA Fire Services Management Committee (FSMC) with a summary of the progress on the Fire Standards. The Fire Standards Board last met formally on 8th December 2021, held a workshop in February 2022 and they next meet formally on 15 June 2022.

Recommendations

Members are asked to:

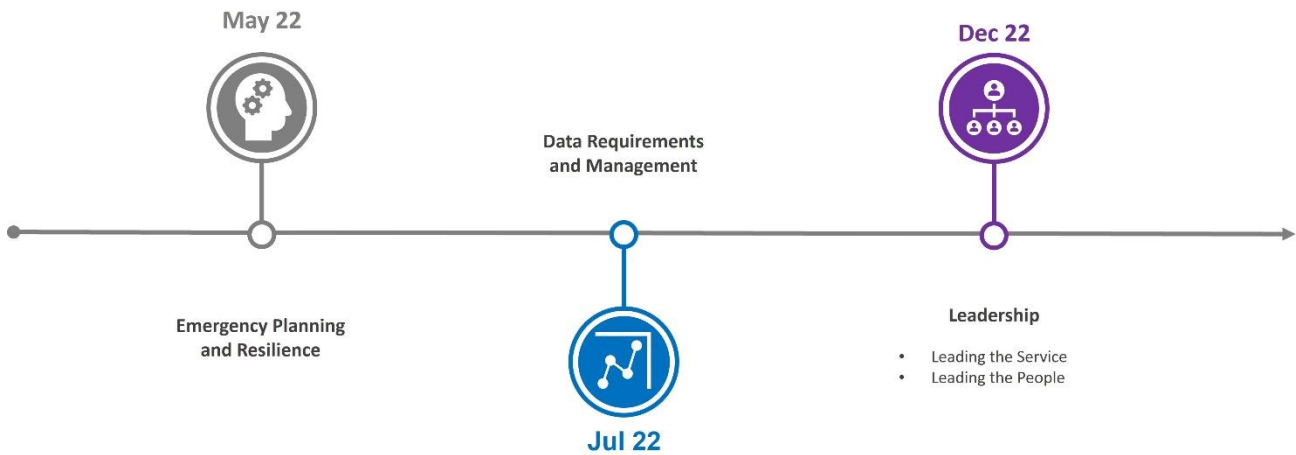

- note the contents of this report for information;
- provide ongoing support to officers in enabling and empowering them to engage in the development and implementation of the Fire Standards both in production and when published; and
- encourage the monitoring of the benefits of the Fire Standards in their services.

Current Status

There are now ten approved and published Fire Standards which are available on the [Fire Standards Board](#) (FSB) website and shown in the timeline figure below.

The second phase of Fire Standards development is progressing with the remaining standards underway shown on the timeline diagram below, with a summary of the current status by standard:

Development Update

Emergency Preparedness and Resilience

- Consultation on this standard completed in February 2022.
- Quality Assurance will be completed 23rd May and submitted to FSB for final approval.
- Expected publication by 31 May 2022.

Data Requirements and Management

- Consultation on this standard completed in May 2022.
- Analysis of the consultation responses will take place during May to agree any revisions.
- It is anticipated the post-consultation standard will then be shared with FSB for approval for quality assurance in June 2022.
- Expected publication by July 2022.

Leadership and People Fire Standards

- Following a period of development and peer review, it has been agreed two complimentary Fire Standards would be developed to cover the following;
 - **Service Leadership** (formerly “well-led” organisation) – setting out what an organisation that is well-led would look like and responsibilities and expectations of operational leaders
 - **Leading and Developing People** – setting out what good recruitment, development and management of people looks like to achieve a competent and motivated workforce
- Draft Fire Standards were considered by the board and the peer group during February and March 2022, the conclusions of which were that further revisions would be required.
- Revision work is underway along with benchmarking against leadership industry standards aiming to produce pre-consultation drafts by June 2022.
- Consultation is then anticipated to commence by the end of June.
- Subject to consultation feedback, it is expected these standards will be published by December 2022.

Remaining Areas for Consideration

A third phase of development work is currently being scheduled, the figure below shows the areas being considered for possible Fire Standards. The areas in red are being addressed through the Leadership and People Fire Standards.

| Strategic | Cultural | Enabling | Service Delivery |
|---|---|--|--|
| <ul style="list-style-type: none"> • Finance ¹ • Corporate risk ¹ • Organisational performance management ¹ • Change management ¹ • Workforce planning and management ¹ | <ul style="list-style-type: none"> • Communication and Engagement (including collaboration and strategic partnerships) • Health and Wellbeing | <ul style="list-style-type: none"> • People Management ¹ • Finance and Assurance • Commercial - Procurement, commercial and contracts • Asset Management - Fleet, estate and facilities • Digital and Technology | <ul style="list-style-type: none"> • Fire Control |

¹ - Fire Standards for leadership and people

It will not necessarily follow that a single Fire Standard will be developed for each activity listed above, but these are the areas of activity that remain outstanding. Discovery work and research in each area will help clarify and confirm what standards may be developed in a third phase. Proposals will be made to the FSB in June 2022.

It is anticipated that the full suite of standards will total approximately 21.

The FSB has a defined periodic review process in place following publication of a Fire Standard but can initiate an exceptional review should the need arise.

Implementation support

The FSB, through the NFCC Fire Standards and Implementation Teams, will be continuing to support services as they work to achieve the Fire Standards. Implementation tools are provided with all published Fire Standards.

Impact and Benefits Realisation

The FSB are keen to understand the impact of the Fire Standards now that the first standards have been published. As part of both the development process and the consultation on each Fire Standard we ask services about potential impacts.

The FSB will be undertaking engagement activity with services during the summer 2022 to help better understand impacts and review progress to date.

Background notes for information

The Fire Standards Board (FSB) is responsible for the identification, organisation, development and maintenance of professional standards for fire and rescue services in England. Led by an independent Chair and Vice Chair, membership of the Board includes the NFCC, employers (both the LGA and the APCC) and the Home Office.

The LGA representative on the Board is Cllr Nick Chard.

The FSB continues to meet regularly to review the progress made on Fire Standards development. Its next meeting is scheduled for 15 June 2022.

Given the various stages of development required and the time needed for engagement with services in the early stages, as well as through formal consultation, development work and publications are staggered. This is primarily done to align capacity and resources in a considered way, but also to pace the rate at which standards are released to services.

Once approved, Fire Standards are shared on the [Fire Standards Board website](#).

Services should now be aware of the requirements being placed upon them through these Fire Standards. Her Majesty's Inspectorate of Constabulary and Fire and Rescue Services (HMICFRS) will be referencing the standards in their inspection arrangements and therefore services should be prepared to evidence their progress towards achieving them.

The Fire Standards Board would welcome and appreciate the support of fire authority chairs and members in:

1. Ensuring their services are enabled to engage in Fire Standards by releasing their subject matter experts to support development work and peer review through the NFCC where appropriate and feasible.
2. Responding to the Fire Standards consultations as they are published; and,
3. Supporting activities to achieve those Fire Standards through implementation once approved and published.

Fire Services Management Committee Update Paper

Purpose of report

For information.

Summary

The report outlines issues of interest to the Fire Services Management Committee not covered under other items on the agenda.

Recommendation

That members of the Committee note the report.

Actions

Officers to continue to provide updates to members.

Fire Services Management Committee Update Paper

LGA Annual Fire Conference 2022

1. The LGA Annual Fire Conference took place 15th - 16th March in Gateshead, Newcastle, this was the first in-person LGA Conference since Covid restrictions were lifted.
 - 1.1. The theme for the Conference was “Delivering Transformation”. Lord Stephen Greenhalgh and Sir Thomas Windsor discussed the Government’s Fire reform programme. Workshops covered sector-led improvement, climate change, EDI in the fire and rescue sector and workforce engagement and Effective Scrutiny and oversight of Fire Services. And plenary sessions focussed on people, efficiency, and effectiveness.
 - 1.2. There were 185 delegates in attendance of which 39 returned completed feedback forms. 94.8% of respondents were either very or fairly satisfied with the conference overall, with the remaining stating they were neither satisfied nor dissatisfied.
 - 1.3. 92.3% said the conference met their needs and 86.5% said it provided them with information that they will use in their organisation.
 - 1.4. Written feedback was also positive and highlighted a good variety of content and speakers. When asked what could be improved some respondents addressed a need for more delegate interaction during sessions and greater use of case studies.

Fire and Rescue Leadership Essentials

2. The dates for the next Fire and Rescue Leadership Essentials course have been confirmed and will take place Tuesday 12 July – Wednesday 13 July at Warwick University.
 - 2.1. Free to all Members, this course aims to provide an induction to the fire sector and is a great opportunity to network with other fire members, so new fire authority members are being particularly encouraged to attend. By the end of the course, delegates will have had the opportunity to:
 - 2.2. Develop a comprehensive understanding of the fire sector, including clarity on duties and responsibilities Develop skills around leadership in fire and rescue authorities (FRAs).
 - 2.3. Develop skills around leadership in fire and rescue authorities (FRAs).
 - 2.4. Gain a thorough understanding of scrutiny and governance in FRAs and practical skills to apply that understanding.
 - 2.5. Improve knowledge of the key strategic issues facing the sector, including fire reform, building safety, the fire inspections regime and issues around culture, inclusion and diversity in the fire sector.

- 2.6. Improve knowledge of the key strategic issues facing the sector, including fire reform, building safety, the fire inspections regime and issues around culture, inclusion and diversity in the fire sector.

Fire Inclusion and Diversity Member Champions Network

3. The Fire and Diversity Member Champions Network reconvened virtually on 24 March 2022. The network brings together elected representatives who are responsible for diversity and inclusion issues in their fire and rescue authorities.
 - 3.1. The group heard from Alex Johnson, Chief Fire Officer at South Yorkshire FRA who delivered a thought-provoking presentation about her experiences in the sector including the barriers she has faced and the work she has been doing to remove barriers for others in the sector.
4. The next meeting is scheduled for Friday 10 June, taking place in a Hybrid format at the LGA offices. The exact timings are to be confirmed but we welcome all Fire Commission and FSMC members who may wish to attend.

Outside bodies update

5. HMICFRS – Consultation on Round 3 of inspection: On Monday 9 May HMICFRS wrote to fire authorities and services regarding their consultation on round 3 of inspection. The consultation is open until 6 June. The LGA will respond to the consultation.
6. HMICFRS External Reference Group (ERG): In early May the Inspectorate held its External reference Group with the sector. The Group is chaired by HMI Roy Wilsher and discusses a range of issues on inspection, including findings from the tranches, updating of the inspection programme
7. ESMCP Fire Customer Group: The Fire Customer Group has continued to meet to discuss the Emergency Services Mobile Communications Programme. We hope to provide a further update at the July FSMC meeting.
8. Strategic Resilience Board: On 19 April the Strategic Resilience Board met. The Board discussed a range of issues on resilience across the UK.
