

<b>Title of Paper</b>	<b>Fire Standards Progress Report</b>
<b>Decision or Information</b>	For information
<b>Title and Date of Meeting</b>	LGA Fire Services Management Committee 6 <sup>th</sup> March 2023
<b>Attachments</b>	None

## Summary

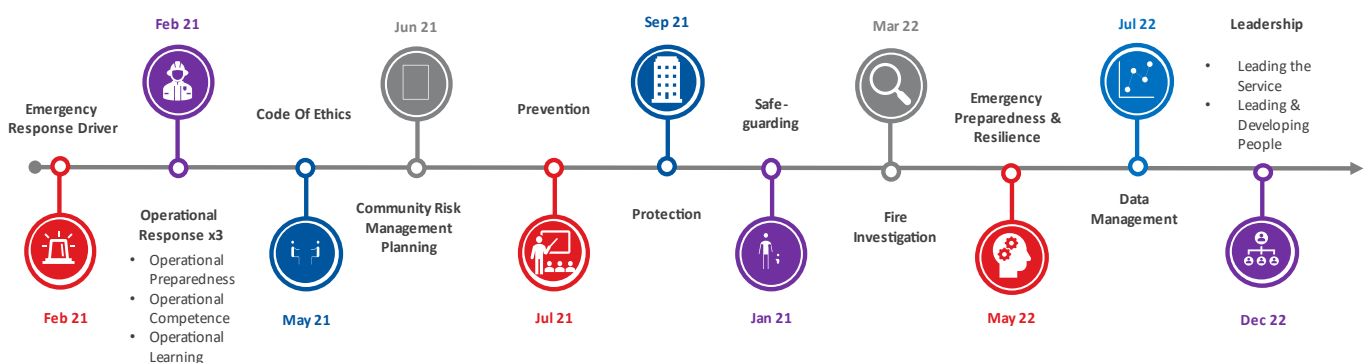

This paper provides members of the LGA Fire Services Management Committee (FSMC) with a summary of the progress on the Fire Standards. The Fire Standards Board last met formally on 21<sup>st</sup> December 2022 and they next meet on 30<sup>th</sup> March 2023.

## Recommendations

Members are asked to:

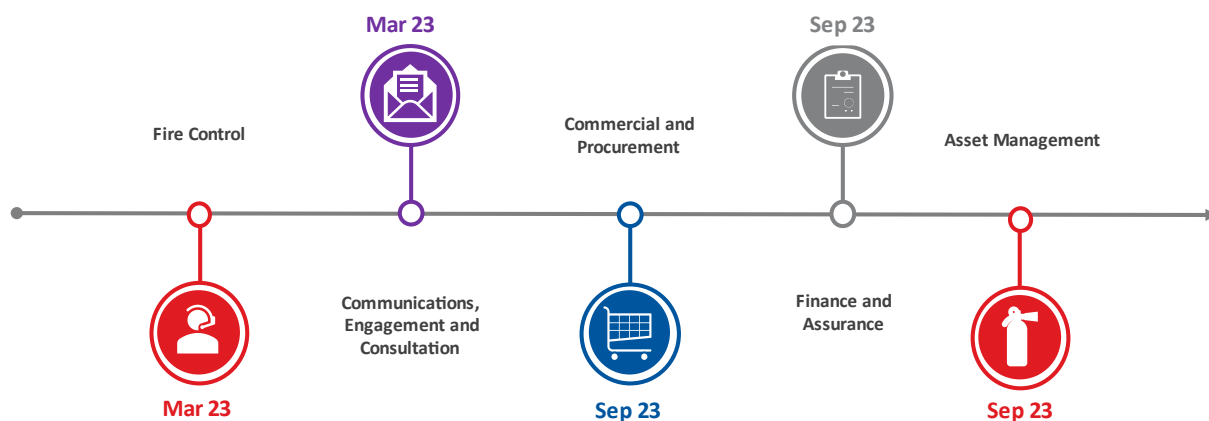

- note the contents of this report for information;
- provide ongoing support to officers in enabling and empowering them to engage in the development and implementation of the Fire Standards both in production and when published; and
- encourage the monitoring of the benefits of the Fire Standards in their services.

## Current Status

There are now fourteen approved and published Fire Standards which are available on the [Fire Standards Board](#) (FSB) website and shown in the timeline figure below.

The second and third phases of Fire Standards development is progressing with the remaining standards underway shown on the timeline diagram below, with a summary of the current status by standard:

## Development Update

### Leadership and People Fire Standards

- The **Leading the Service** and **Leading and Developing People Fire Standards** opened for consultation in June 2022 and closed in September 2022.
- The Fire Standards Board approved the publication of the two standards on 21 December 2022.

### Phase Three Fire Standards

A third phase of development work was approved by the FSB at the Board meeting on 15<sup>th</sup> June 2022. The Board agreed to the following standards for production as part of phase three:

No.	Activity / Potential Fire Standard	Activity Framework Category
1	Fire Control	Service Delivery
2	Communication, engagement, consultation	Cultural and Enabling
3	Commercial and Procurement (Resources)	Enabling
4	Finance and Assurance (Resources)	Enabling
5	Asset Management (Resources)	Enabling

### Fire Control Fire Standard

- Development on this standard commenced in September 2022, with Ben Norman, NFCC Lead for Fire Control supporting this work.
- Peer review on the Fire Control Fire Standard took place in October 2022 and the Board approved the revised standard to commence consultation in December 2022.
- Consultation on the standard closed on 6 February 2023
- Subject to consultation feedback, the Fire Control Fire Standard is expected to be published in March 2023.

## **Communications, Engagement and Consultation Fire Standard**

- Development on this standard commenced in September 2022, with Neil Odin, NFCC Lead for Prevention supporting this work.
- Peer review on the Communications, Engagement and Consultation Fire Standard took place in October 2022 and the Board approved the revised standard to commence consultation in December 2022.
- Consultation on the standard closed on 6 February 2023
- Subject to consultation feedback, the Communications, Engagement and Consultation Fire Standard is expected to be published in March 2023.

## **Resources Fire Standards: Commercial and Procurement, Finance and Assurance, Asset Management**

- Work on these three standards is commenced in February 2023
- Further updates on this will be provided in the next report.

It is anticipated that the full suite of standards will total approximately 21.

The FSB has a defined periodic review process in place following publication of a Fire Standard but can initiate an exceptional review should the need arise.

## **Implementation support**

The FSB, through the NFCC Fire Standards and Implementation Teams, will be continuing to support services as they work to achieve the Fire Standards. Implementation tools are provided with all published Fire Standards.

## **Impact and Benefits Realisation**

The FSB are keen to understand the impact of the Fire Standards now that the first standards have been published. As part of both the development process and the consultation on each Fire Standard we ask services about potential impacts.

The FSB has engaged with services across England between July and November 2022 to help better understand impacts and review progress to date. They have gathered a wide range of feedback from services and are currently in the process of using that feedback to develop a number of tools to support services alongside a long-term communications and engagement plan.

## **Background notes for information**

The Fire Standards Board (FSB) is responsible for the identification, organisation, development and maintenance of professional standards for fire and rescue services in England. Led by an independent Chair and Vice Chair, membership of the Board includes the NFCC, employers (both the LGA and the APCC) and the Home Office.

The LGA representative on the Board is Cllr Nick Chard.

The FSB continues to meet regularly to review the progress made on Fire Standards development. Its next meeting is scheduled for 30<sup>th</sup> March 2023.

Given the various stages of development required and the time needed for engagement with services in the early stages, as well as through formal consultation, development work and publications are staggered. This is primarily done to align capacity and resources in a considered way, but also to pace the rate at which standards are released to services.

Once approved, Fire Standards are shared on the [Fire Standards Board website](#).

Services should now be aware of the requirements being placed upon them through these Fire Standards. Her Majesty's Inspectorate of Constabulary and Fire and Rescue Services (HMICFRS) will be referencing the standards in their inspection arrangements and therefore services should be prepared to evidence their progress towards achieving them.

The Fire Standards Board would welcome and appreciate the support of fire authority chairs and members in:

1. Ensuring their services are enabled to engage in Fire Standards by releasing their subject matter experts to support development work and peer review through the NFCC where appropriate and feasible.
2. Responding to the Fire Standards consultations as they are published; and,
3. Supporting activities to achieve those Fire Standards through implementation once approved and published.
